

Master Subcontractor Agreement (Comprehensive)

Purpose: *The all-in-one master contract — core terms plus field, documentation, technology, branding, and uniform requirements. Payment terms are set separately.*

This Master Subcontractor Agreement (“Agreement”) is entered into between **Archangel Contracting Services** (“Company”) and the undersigned **Subcontractor**, effective on the date signed below, and governs all work the Subcontractor performs for Company.

1. Independent Contractor. Subcontractor is an independent contractor, not an employee, partner, or agent of Company. Subcontractor controls the means, methods, crews, tools, and hours of its work; Company specifies only the scope, schedule, and quality standards. Subcontractor is responsible for its own taxes, employees, benefits, and payroll, and has no authority to bind Company.

2. Scope & Work Orders. Company may offer work via written Work Orders identifying the property, unit(s), scope, price, and schedule. Each accepted Work Order is governed by this Agreement. Subcontractor is not guaranteed any minimum volume, and Company may use other vendors.

3. Pricing & Invoicing. Subcontractor bills per the agreed Work Order price and Company’s Invoicing Guide, separating labor from materials and not charging Company sales tax where Company’s resale certificate is on file. Non-conforming invoices may be returned.

4. Payment. Company pays approved, complete invoices according to the payment terms agreed with Subcontractor in the applicable Payment Terms document or Work Order, subject to satisfactory completion, documentation, and required lien waivers. Company may withhold or offset for defective work, backcharges, or missing documents.

5. Standard of Work; Warranty. Subcontractor performs in a good and workmanlike manner, per applicable codes and specs, and warrants work and materials for _____ **months** (e.g., 12), correcting defects at its own cost promptly on notice.

6. Completed Work Documentation (Before & After Photos). For every job, Subcontractor must capture time-stamped “before” photos prior to starting and “after” photos upon completion, clearly showing the unit/area and scope, and upload them through Company’s technology platform before invoicing. **Documentation is a condition of payment — no before/after photos and completion sign-off, no payment;** non-conforming invoices are held until provided. Subcontractor records completion and any punch items in the platform; Company or its client may inspect, and Subcontractor corrects deficiencies at its own cost. All job photos and records are Company’s property and part of the client file and may not be published or reused.

7. Uncompleted, Abandoned & Defective Work. Subcontractor is paid only for work actually completed and accepted; partial or abandoned jobs are paid only for the conforming completed portion, if any, at Company’s reasonable valuation. If Subcontractor fails to complete, abandons, or performs defective work, Company may (after notice where practical) complete it or hire another vendor and **backcharge** Subcontractor the reasonable excess cost, deducting it from amounts owed.

Missed deadlines on time-sensitive turn/make-ready work that cause Company loss (e.g., lost rent or client penalties) may be backcharged to the extent caused by Subcontractor.

8. Use of Company Technology Platform. Subcontractor must use Company's designated technology platform(s)/app(s) to receive Work Orders, check in/out, upload photos, update status, and submit documentation and invoices. Subcontractor keeps its credentials confidential, ensures its workers use the platform correctly, and is responsible for activity under its account; access may be revoked on termination. Platform data belongs to Company and is Confidential Information; Subcontractor will not export, copy, or use it outside Company work, and will not falsify check-ins, timestamps, photos, or completion entries. Falsified documentation is cause for immediate termination and forfeiture of disputed payment.

9. Representing the Company; No Self-Promotion. At every property, Subcontractor presents and conducts itself as part of the Archangel service team, and all on-site communication is on Company's behalf. Subcontractor will not market, advertise, or distribute its own business name, cards, signage, vehicle branding, flyers, or contact information at any Company property or client, and will not solicit the client, property staff, or residents for its own or any third party's business. Consistent with the Non-Solicitation/Non-Circumvention covenant, Subcontractor will not use an assignment to develop its own relationship with that client/property and uses resident/client contact information only for the Company job. Conduct reflecting poorly on Company is cause for removal.

10. Uniform, Badge & Appearance. When Company requires it, Subcontractor and its workers will wear the Company-designated uniform, shirt, vest, or visible ID badge on Company properties and keep it clean and professional; Company may provide or require purchase of branded apparel. Subcontractor will not wear or display its own or any competitor's branding while on Company business. Badges, access devices, and Company-owned apparel are returned on termination.

11. Insurance. If Subcontractor carries insurance, it maintains the coverage in Form F-1 and provides current COIs naming Company as additional insured to the extent permitted by law; a vendor without coverage completes the No-Insurance Waiver (Form F-2).

12. Compliance & Licensing. Subcontractor holds all required licenses/permits, follows all laws (including OSHA and I-9 for its own workers), and is solely responsible for its workers' wages and safety.

13. Property & Resident Care. Subcontractor protects resident property and privacy, secures units and keys, reports damage immediately, and does not enter occupied units except as authorized.

14. Independent-Contractor Status Preserved. The documentation, platform, branding, and uniform standards above govern how Subcontractor represents Company and documents results — not the day-to-day means and methods of the work. Subcontractor remains an independent contractor controlling its own crews, hiring, tools, hours, and methods. Nothing in this Agreement makes Subcontractor or its workers employees of Company.

15. Other Agreements Incorporated. The Mutual NDA (C), Restrictive Covenants (D), Insurance/Indemnity (E), Release, Waiver & Assumption of Risk (M), and the applicable Payment Terms (Form B-1 for Net 30, or the alternate payment terms) are incorporated into this Agreement.

16. Term & Termination. Continues until terminated by either party on _____ **days'** written notice, or immediately by Company for cause. Confidentiality, non-solicitation, indemnity, warranty, and payment-for-completed-work survive.

17. Governing Law & Venue. Governed by Texas law; venue in _____ **County, Texas.**
The prevailing party may recover reasonable attorneys' fees. A court may reform an overbroad restriction to the extent enforceable.
