Due Upon Receipt — paid right away once approved

HOW TO USE THIS EXAMPLE

List each service on its own line. Every line item must show its own date of work, unit number, and type of work. Units 11106, 11204, and 11311 each appear on separate lines above, and unit 11106 appears twice because two distinct services were performed there. Do not combine services into one lump-sum line. Group all line items for a single property address on one invoice, and submit a separate invoice for each property. Where a PO has been issued, PO numbers must run in consecutive order with no gaps, reuse, or skipped values.
