

B-1. Net 30 Payment Terms

Purpose: *Payment terms for subcontractors working with Archangel Contracting Services on Net 30. Supplements the Master Subcontractor Agreement (Form B).*

These Net 30 Payment Terms supplement the Master Subcontractor Agreement between **Archangel Contracting Services** ("Company") and the undersigned **Subcontractor**. They set the payment timing for this Subcontractor and control over any general payment language in the Master Agreement.

1. Net 30. Company pays Subcontractor's approved, complete invoices on **Net 30** terms — within thirty (30) days after Company's acceptance of the completed, documented work and a conforming invoice.

2. Conditions to Payment. Payment is due only for work that is completed, accepted, and fully documented (including required before/after photos), with a conforming invoice under Company's Invoicing Guide and any required lien waiver. Incomplete, undocumented, or defective work is not payable until cured.

3. Invoicing. Subcontractor invoices per Company's Invoicing Guide — separating labor from materials, not charging Company sales tax where Company's resale certificate is on file, and including the property, unit #, scope, and Work Order # on every invoice.

4. Offsets / Backcharges. Company may offset against amounts owed any backcharges, replacement-vendor costs, damage, or unreturned items.

5. No Change to Status. Nothing in these terms changes Subcontractor's status as an independent contractor under the Master Subcontractor Agreement.
