

Vendor Field Standards & Payment Terms Agreement

Payment terms, work documentation, technology, conduct & brand representation. This Agreement applies to all Work Orders; where it overlaps with the Master Subcontractor Agreement, the stricter standard controls.

1. Payment Terms

1.1 Net 30. Company pays Subcontractor's approved, complete invoices on **Net 30** terms — within thirty (30) days after Company's acceptance of the completed, documented work and a conforming invoice.

1.2 Conditions to Payment. Payment is due only for work that is completed, accepted, and fully documented under Section 2, with a conforming invoice under the Invoicing Guide and any required lien waiver. Incomplete, undocumented, or defective work is not payable until cured.

1.3 Offsets / Backcharges. Company may offset against amounts owed any backcharges, replacement-vendor costs, damage, or unreturned items under Section 3.

2. Completed Work Documentation (Before & After Photos)

2.1 Photos Required. For every job, Subcontractor must capture **time-stamped “before” photos prior to starting work and “after” photos upon completion**, clearly showing the unit/area and the scope performed, and upload them through Company’s technology platform (Section 4) before submitting an invoice.

2.2 Documentation Is a Condition of Payment. No before/after documentation = no payment. Invoices submitted without the required photos and completion sign-off will be held until the documentation is provided.

2.3 Completion Sign-Off. Subcontractor records completion (and any punch items) in the platform. Company or its client may inspect; Subcontractor promptly corrects deficiencies at its own cost.

2.4 Ownership of Documentation. All job photos and records created for Company work are Company’s property and part of the property/client file; Subcontractor may not publish or reuse them (see Section 5).

3. Uncompleted, Abandoned & Defective Work

3.1 No Payment for Work Not Done. Subcontractor is paid only for work actually completed and accepted. Partial or abandoned jobs are paid only for the conforming completed portion, if any, at Company’s reasonable valuation.

3.2 Cure & Replacement. If Subcontractor fails to complete, abandons, or performs defective work, Company may (after notice where practical) complete it itself or hire another vendor and **backcharge Subcontractor** the reasonable excess cost, deducting it from any amounts owed.

3.3 Deadlines. Turn/make-ready work is time-sensitive. Missed deadlines that cause Company loss (e.g., lost rent or client penalties) may be backcharged to the extent caused by Subcontractor.

3.4 Warranty. Subcontractor corrects defective work and materials at its own cost for the warranty period in the Master Agreement.

4. Use of Company Technology Platform

4.1 Required Use. Subcontractor must use Company's designated technology platform(s)/app(s) to receive Work Orders, check in/out, upload before/after photos, update job status, and submit completion documentation and invoices, following Company's instructions.

4.2 Accounts & Security. Subcontractor keeps its login credentials confidential, ensures its workers use the platform correctly, and is responsible for activity under its account. Access may be revoked on termination.

4.3 Data. All data entered (photos, notes, timestamps, client/property details) belongs to Company and is Confidential Information under the NDA. Subcontractor will not export, copy, or use platform data outside Company work.

4.4 Accuracy. Subcontractor will not falsify check-ins, timestamps, photos, or completion entries. Falsified documentation is cause for immediate termination and forfeiture of disputed payment.

5. Representing Archangel — No Self-Promotion

5.1 You Represent the Company. At every property, Subcontractor presents and conducts itself as part of the **Archangel service team** to the client and residents. All communication on site is on Company's behalf.

5.2 No Self-Promotion or Solicitation. Subcontractor will not, at any Company property or client, **market, advertise, or distribute its own business name, cards, signage, vehicle branding, flyers, or contact information**, and will not solicit the client, property staff, or residents for its own or any third party's business. Subcontractor will not represent the Company relationship to clients/residents as anything other than performing Company's work.

5.3 Non-Circumvention. Consistent with the onboarding Non-Solicitation/Non-Circumvention covenant, Subcontractor will not use a Company property assignment to develop its own relationship with that client/property. Resident or client contact information obtained on the job is used only for the Company job and not retained for Subcontractor's own use.

5.4 Professional Conduct. Subcontractor and its workers will be courteous and professional, respect resident privacy and property, and follow property rules. Conduct reflecting poorly on Company is cause for removal.

6. Uniform, Badge & Appearance

6.1 Uniform When Required. When Company requires it, Subcontractor and its workers will wear the Company-designated uniform, shirt, vest, or visible ID badge while on Company properties, and will keep it clean and professional. Company may provide or require purchase of branded apparel.

6.2 No Conflicting Branding. While on Company business, Subcontractor will not wear or display its own company branding or that of any competitor.

6.3 Return. Badges, access devices, and Company-owned apparel are returned on termination.

7. Independent-Contractor Status Preserved

The branding, uniform, documentation, and platform standards above govern how Subcontractor represents Company and documents results — not the day-to-day means and methods of the work. Subcontractor remains an **independent contractor**: it controls its own crews, hiring, tools, hours, and methods, supplies its own labor, and is responsible for its own taxes, insurance, and workers. Nothing in this Agreement makes Subcontractor or its workers employees of Company.

8. Acknowledgment & Signature

Subcontractor has read and agrees to these Field Standards & Payment Terms, including Net 30 payment, the before/after photo and documentation requirements, mandatory use of Company's platform, the no-self-promotion and brand-representation rules, and uniform requirements.
