

## SUBCONTRACTOR INVOICING & PAYMENT GUIDE

*How to Submit Invoices to ArchAngel Contractors*

Dear Subcontractor,

Thank you for partnering with ArchAngel Contractors. As part of your subcontractor onboarding, this guide explains how to prepare and submit invoices, what information every invoice must contain, and how and when you will be paid. Please share this document with anyone on your team responsible for billing.

A sample invoice is attached. It illustrates the required format and field placement, including how to bill multiple services on a single invoice. Please use it as a reference when building your own invoice template.

### 1. Where to Send Your Invoice

- **Submit To (email):** Admin@archangelcontractors.com
- **Attention:** May Mahboob
- **Preferred Format:** One invoice per PDF, submitted electronically by email. Please do not send invoices by mail, fax, or through individual field staff.
- **Billing Address (for reference on the invoice):** ArchAngel Contractors, ATTN: May Mahboob, 130 N Preston Rd, Suite 334, Prosper, TX 75078

### 2. Required Information on Every Invoice

An invoice missing any of the following will be returned unpaid and must be resubmitted:

- **Invoice Number** — unique to each invoice
- **Date of Work** — the date the service was actually performed
- **Unit Number** — the specific unit serviced
- **Type of Work** — a clear description of the service performed
- **Property Address** — the full address of the property where work was performed
- **Payment Terms** — for example: Net 30, Net 15, Net 7, or Due Upon Receipt (see Section 5)
- Your company name, remittance address, and billing contact
- Total invoice amount

### 3. Billing Multiple Services on One Invoice

If you performed more than one service, or worked in more than one unit, list each service on its own separate line item. Do not combine multiple services into a single lump-sum line.

- Each line must show its own **date of work, unit number, and type of work**, along with the quantity, unit price, and line total.
- Repeat a unit number across multiple lines if several distinct services were performed in that same unit.
- Group all line items for a single property address on one invoice. Submit a separate invoice for each property.
- The subtotal and total must equal the sum of the individual line items shown.

## 4. Purchase Order Numbers

Where ArchAngel Contractors has issued a Purchase Order, the PO number must appear on the invoice, and PO numbers must be used in consecutive order — with no gaps, skipped values, or duplicates.

**PO numbers must stay in sequence.** Begin at the first PO number issued to you and advance one number per invoice. Do not skip a number, do not jump ahead, and never reuse or duplicate a PO number — even for recurring or scheduled services. Out-of-sequence, duplicate, or missing PO numbers will delay approval and payment.

## 5. Payment Terms and Details

Your payment terms are stated on your agreement or purchase order. Common terms are shown below:

| Payment Term     | What It Means                                                                                                  |
|------------------|----------------------------------------------------------------------------------------------------------------|
| Net 30           | Payment is issued within 30 days of the invoice date. This is the standard default term.                       |
| Net 15           | Payment is issued within 15 days of the invoice date.                                                          |
| Net 7            | Payment is issued within 7 days of the invoice date.                                                           |
| Due Upon Receipt | Paid right away — processed as soon as the invoice is received and approved, without waiting for a net period. |

- **Default Term:** Unless your agreement or purchase order states otherwise, terms are Net 30.
- **Approval:** Invoices are reviewed against the scope authorized for the property and confirmation that the work was completed. Work performed beyond the authorized scope requires written approval before it will be paid.
- **Payment Method:** Payments are issued by check or ACH/bank transfer to the remittance information on file. Please confirm your remittance details during onboarding and notify us in writing of any changes.
- **Invoice Timing:** Submit invoices promptly after work is completed. Invoices submitted more than 90 days after the date of work may require additional review.
- **Disputes and Short Payments:** If any portion of an invoice is disputed, we will contact your billing contact directly. Undisputed amounts will continue to be processed on the normal schedule.

## 6. Common Reasons Invoices Are Delayed

- Missing invoice number, date of work, unit number, type of work, or property address
- Multiple services combined into a single lump-sum line item
- Missing, duplicate, or out-of-sequence PO number where a PO was issued
- Invoice sent to an individual instead of Admin@archangelcontractors.com
- Work billed beyond the authorized scope without written approval

Following the process above allows us to review and pay your invoices promptly. If you have any questions about invoicing, purchase orders, or payment status, please contact May Mahboob at Admin@archangelcontractors.com.

We appreciate your cooperation and look forward to working with you.

Sincerely,

**May Mahboob**

**ArchAngel Contractors**
