

ARCHANGEL WINGS PROGRAM

QUARTERLY PROFIT SHARING • ARCHANGEL CONTRACTORS

Every quarter, after the bills are paid, Archangel puts **12% of the company's profit** into one pot. That pot is split among the crew. This is not a raise and not a handout — it is a share of what we all built that quarter. **The better you work, the more responsibility you carry, and the longer you stay, the bigger your slice.**

1 HOW YOUR SLICE IS MEASURED — WINGS

Nobody gets a fixed percentage. You earn **Wings**. At the end of the quarter we add up everyone's Wings, divide the pot by that total, and that tells us what **one Wing is worth**. Your check is simply your Wings × the value of a Wing.

$$\text{Your Wings} = (\text{Your Role} + \text{Founder Bonus}) \times \text{Years Here} \times \text{Accountability Score}$$

A. YOUR ROLE → BASE WINGS	B. YOUR YEARS → MULTIPLIER	C. YOUR SCORE → MULTIPLIER
Crew member 10	Under 1 year not eligible	95 – 100 × 1.30
Lead hand / senior crew 15	1 – 2 years × 1.00	90 – 94 × 1.15
Foreman 25	2 – 4 years × 1.15	80 – 89 × 1.00
Superintendent / office 35	4 – 7 years × 1.30	70 – 79 × 0.80
Founding member bonus +15	7+ years × 1.50	60 – 69 × 0.50
Founder bonus stacks on top of your role and is locked to the original crew list.		Under 60 × 0 — no share
You must be here one full year before you share in the pot. Year one, you learn the job.		Your score is live in the app every day: safety, on time, closing out your work, photos & logs, customer feedback.

2 WHAT A REAL QUARTER LOOKS LIKE

Say the company clears **\$200,000** in profit for the quarter. 12% of that is a **\$24,000 pot**. Here is how seven people would split it:

CREW	ROLE	YEARS	SCORE	WINGS	THEIR CHECK
Marcus	Founding Superintendent	6	92	$(35+15) \times 1.30 \times 1.15 = 74.8$	\$9,473
Danny	Founding Foreman	6	85	$(25+15) \times 1.30 \times 1.00 = 52.0$	\$6,590
Rosa	Foreman	3	96	$25 \times 1.15 \times 1.30 = 37.4$	\$4,736
Tyrell	Lead hand	2.5	88	$15 \times 1.15 \times 1.00 = 17.3$	\$2,186
Kev	Crew member	1.5	74	$10 \times 1.00 \times 0.80 = 8.0$	\$1,014
Andre	Crew member	2	58	score under 60 — forfeited	\$0
Sam	Crew member	0.6	91	under 1 year — not eligible yet	\$0
Total Wings in the pile: 189.4 → $\$24,000 \div 189.4$				ONE WING = \$126.73	\$24,000

THIS IS WHY IT'S CALLED MUTUAL — Andre's 58 cost him his whole share, and his Wings left the pile. With fewer Wings splitting the same pot, **every single Wing got worth about 6% more**. Rosa's check went up because Andre didn't do his part. It works the other way too: when Andre picks it up, the pot he helps earn gets bigger for all of us. **We carry each other, and we get paid for it.**

3 WHAT THIS CAN GROW INTO

Kev is at \$1,014 today. Nothing about that is fixed — here is his road, at a similar sized pot:

KEV'S NEXT MOVES	WINGS	HIS CHECK
Today — crew, 1.5 yrs, score 74	8.0	\$1,014
Same job, pulls score up to 90	11.5	\$1,458
Hits 2.5 years, holds a 90	13.2	\$1,676
Made lead hand, 3 yrs, score 92	19.8	\$2,514
Made foreman, 5 yrs, score 95	42.3	\$5,354

Same man, same company — 5× the check, just from showing up, scoring well, and taking on more.

4 THE RULES, PLAIN AND SHORT

- **One full year before you're eligible.** No exceptions, no partial credit.
- **Score under 60 = no share that quarter.** You'll have seen it coming in the app.
- **Willful safety violation = no share that quarter**, whatever your score was.
- **Paid 45 days after the quarter closes**, once the books are final.
- **You must still be employed on payout day.** Quit or fired for cause, you forfeit that quarter.
- **Laid off or hurt on the job?** You get a prorated share for the weeks you worked.
- **The role you hold on the last day of the quarter** is the role that counts. Promotions pay immediately.
- **You have 14 days after quarter close to dispute your score.** Every point is traceable to a record.
- **Wings totals are posted for everyone. Checks are private.** You can always verify the math is fair.
- **This is a bonus program, not ownership.** You are not buying or receiving equity in Archangel.
